Building an AI agent

Your first AI agent (1 Question)

Test your knowledge (8 Questions)

Building an AI Agent Quiz

Building an AI Agent Quiz

Bookmark this page

This quiz covers the concepts and skills from this section on building an AI agent. The first part tests your knowledge of how AI agents work, including memory, tool selection, and system prompts. The second part is based on the AI agent workflow you built in this section, so make sure you have completed and passed it before starting.

Question 1

1.0/1.0 point (graded)

If you remove Simple Memory from the AI Agent, what happens when you ask it to recall something from earlier in the conversation?

- ○ The workflow throws an error
- ○ It remembers the last message only
- ○ It saves the conversation to a database automatically
- ◉ It cannot recall anything from previous messages

✔

Answer
Correct: Correct!

Submit You have used 1 of 5 attempts

Question 2

1.0/1.0 point (graded)

How does Simple Memory allow the AI Agent to "remember" previous messages?

- ○ It trains the model on the conversation history
- ○ It gives the language model a persistent memory module
- ◉ It appends recent messages to the prompt sent to the model
- ○ It stores conversations in a database

✔

Answer
Correct: Correct!

Submit You have used 3 of 5 attempts

Question 3

1.0/1.0 point (graded)

What can an AI agent do that a plain LLM cannot?

- ○ Run without credentials
- ○ Process multiple languages
- ◉ Use tools to look up data and take actions
- ○ Generate text

✔

Answer
Correct: Correct!

Submit You have used 1 of 5 attempts

Question 4

1.0/1.0 point (graded)

Ask your agent: "What country is customer 7 from?" What is the correct answer?

- ○ Japan
- ◉ Australia
- ○ Brazil
- ○ Sweden

✔

Answer
Correct: Correct!

Submit You have used 1 of 5 attempts

Question 5

1.0/1.0 point (graded)

Ask your agent: "Who is the employee assigned to order 14?" What is the correct answer?

- ◉ Yoko
- ○ Sarah
- ○ Amelie

Mario

Answer
Correct: Correct!

Submit You have used 1 of 5 attempts

Question 6

1.0/1.0 point (graded)
