Working with data quiz

Summary

## Working with data quiz

Bookmark this page

This quiz covers the concepts and skills from this section on working with data. The first part tests your knowledge of n8n's data structure and transformation tools. The second part is based on the all three workflows you built in this section, so make sure you have completed and passed the workflows before starting.

## Question 1

1.0/1.0 point (graded)

You can create multiple items from one item using the:

- ○ Edit Fields node
- ○ Merge node
- ○ Aggregate node
- ◉ Split Out node

✔

**Answer**
Correct: Correct!

Submit You have used 1 of 3 attempts

## Question 2

1.0/1.0 point (graded)

What do the Convert to File and Extract from File nodes do?

- ○ They only work with image files
- ○ They encode and decode Base64 strings
- ◉ Convert to File transforms JSON data into file formats (CSV, XLS, etc.) and Extract from File converts file data back into JSON

✔

**Answer**
Correct: Correct!

Submit You have used 1 of 3 attempts

## Question 3

1.0/1.0 point (graded)

1.0/1.0 point (graded)

In the Merge node (Combine by Fields mode), you need to pass the Input Field as an expression (e.g. {{ $json.customerID }}).

- (●) False
- ( ) True

✔

**Answer**
Correct: Correct!

Submit You have used 1 of 3 attempts

## Question 4

1.0/1.0 point (graded)

You can use the same Error Workflow for monitoring different workflows.

- ( ) False
- (●) True

✔

**Answer**
Correct: Correct!

Submit You have used 1 of 3 attempts

## Question 5

1.0/1.0 point (graded)

What does the HTML node do?

- ( ) Generates styled HTML email templates from input data and sends them
- ( ) Converts HTML files into PDF documents that can be downloaded or emailed
- ( ) Validates HTML syntax and fixes common formatting errors automatically
- (●) Extracts content from web pages using CSS selectors

✔

**Answer**
Correct: Correct!

Submit You have used 1 of 3 attempts

The following questions relate to the three workflows you built in this section **Merging Data**, **Generating Reports, Monitoring Report Errors** workflow you built during this section. Make sure you have completed and passed the workflows as you will need to inspect the various outputs.

## Question 1

1.0/1.0 point (graded)

In the Generating Reports workflow, what is the name of the employee assigned to order 5?

- ○ Samir
- ◉ Amelie
- ○ Sarah
- ○ Mario

✔

**Answer**
Correct: Correct!

Submit You have used 3 of 3 attempts

## Question 2

1.0/1.0 point (graded)

In the Generating Reports workflow, how many regions appear in the regional summary report?

- ○ 6
- ◉ 4
- ○ 5
- ○ 3

✔

**Answer**
Correct: Correct!

Submit You have used 2 of 3 attempts

## Question 3

1.0/1.0 point (graded)

In the Monitor Report Errors workflow, what is the expression to reference the name of the workflow that failed?

- ○ {{ $workflow.name }}
- ◉ {{ $json.workflow.name }}
- ○ {{ $json.error.workflow }}
- ○ {{ $json.execution.name }}

✔

**Answer**
Correct: Correct!

Submit You have used 2 of 5 attempts

## Question 4

1.0/1.0 point (graded)

In the Merging Data workflow, when updating the Data Table with region and subregion values, which column do you match on to identify the correct row?

- ○ row_number
- ◉ id
- ○ customerEmail
- ○ customerCountry

✔

**Answer**
Correct: Correct!

Submit You have used 3 of 5 attempts

## Question 5

1.0/1.0 point (graded)

In the Generating Reports, what is the total order value for Europe in the European report?

- ○ $7,586.52
- ○ $1,588.73
- ◉ $3,590.54

- ○ $2,110.08

✔

**Answer**
Correct: Correct!

Submit You have used 3 of 5 attempts

## Question 6

1.0/1.0 point (graded)

In the Generating Reports workflow, which field do you use in "Fields to Split By" to group the data by region in the Summarize node?

- ○ orderStatus
- ◉ region
- ○ subregion
- ○ customerCountry

✔

**Answer**
Correct: Correct!

Submit You have used 3 of 5 attempts

## Question 7

1.0/1.0 point (graded)

What header must be included when uploading the European report to the academy endpoint?

- ○ x-api-key
- ○ Content-Type: text/csv
- ◉ x-assessment-id
- ○ Authorization: Bearer [token]

✔

**Answer**
Correct: Correct!

Submit You have used 2 of 5 attempts

## Question 8

1.0/1.0 point (graded)

In Workflow 2, how many orders are included in the European report after filtering?

- ○ 28
- ○ 10
- ◉ 12
